Trials of Light Level Map - 1F

Trials of Light
Level Map - B1

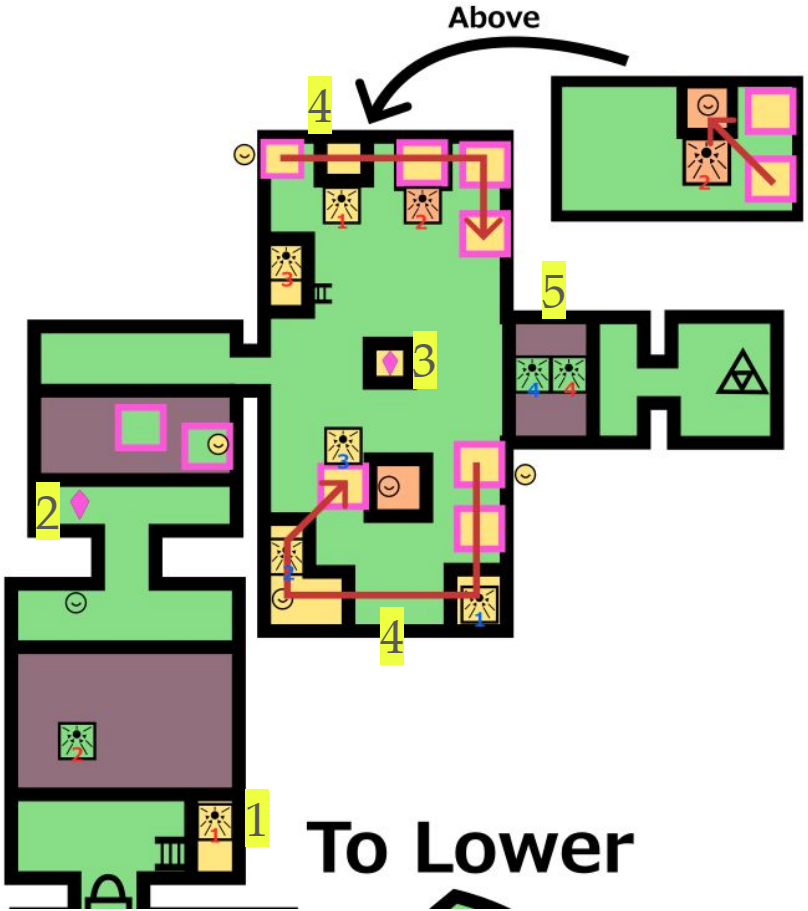

Puzzle Overview

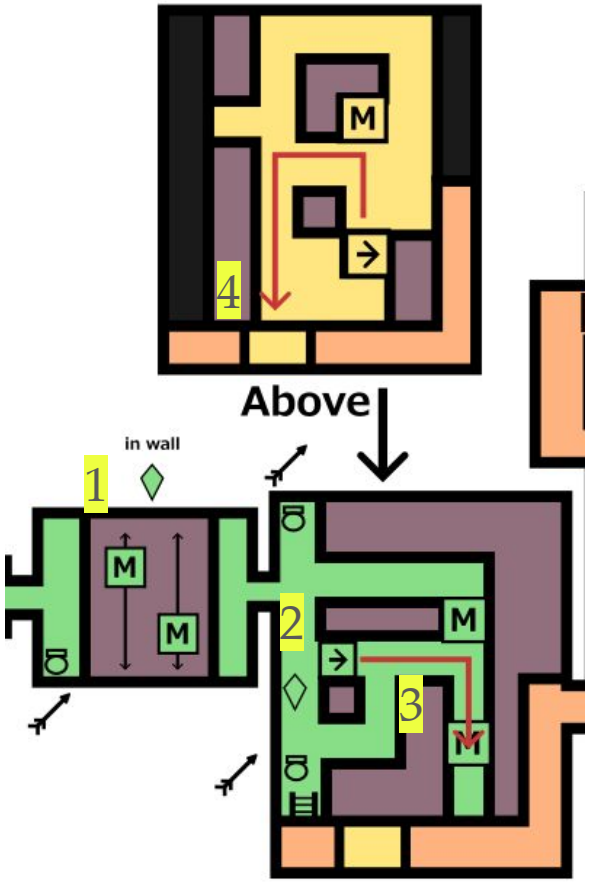

1. Pull block out from wall and move it towards where the light hits the ground.
2. Stand on top of the block and reflect the light onto the sun switch to open the door.
3. Rotating lever which alters the room between two states
    a. Right segment is pulled out of wall and left segment is set in wall
    b. Left segment is pulled out of wall and right segment is set in wall
4. Climb right segment. Remove time block with Song of Time. Push other block onto ground floor.
5. Push block and climb it to access left segment. Remove time block with Song of Time, revealing light source.
6. Reflect light onto sun switch to open door.

Puzzle Overview

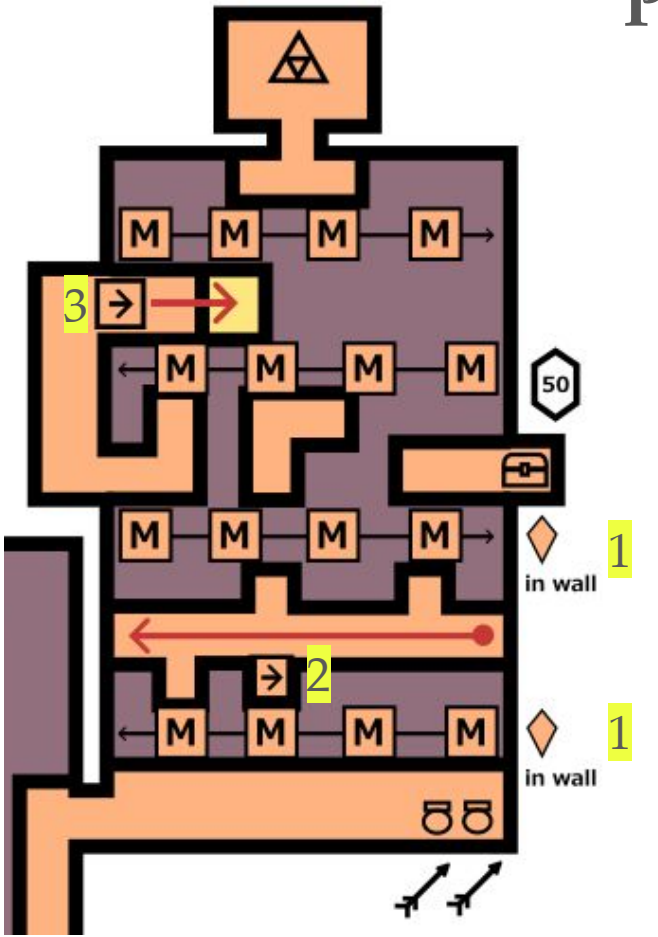

1. Climb up ladder, play Song of Time to move time block from position 1 to position 2. Grapple to other side.
2. Hit crystal to spawn platforms for a short time. Grapple to land on one, then platform to exit.
3. Hit crystal to spawn platforms around the room for a short time.
4. In both segments, grapple and platform to reach the time blocks. Play the Song of Time to move them to their next positions (1 -> 2 -> 3 -> 4).
5. Once both time blocks are at position 4, use them to reach the end of the room.

Puzzle Overview

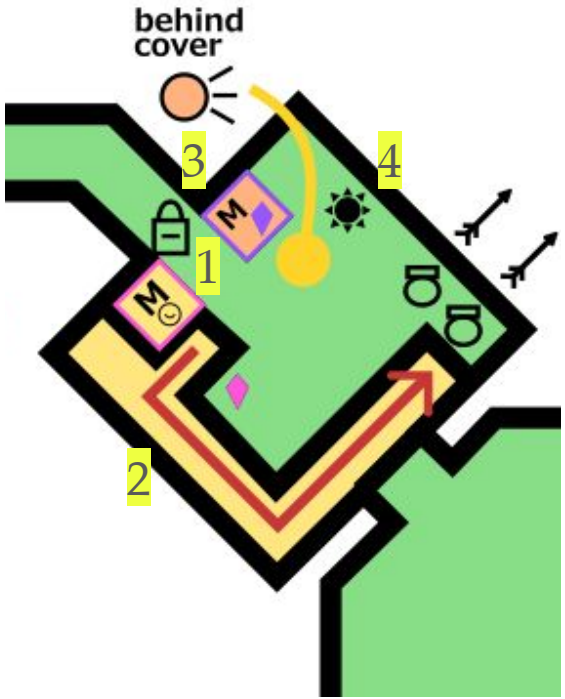

1. Hit the crystal in the wall to stop the moving platforms and use them to reach the end of the room.
2. Hit the crystal to raise the moving platforms up one level or lower them down one level.
3. Push the block along the path, stop on moving block and hit crystal to bring it to the upper level.
4. Push the block into the side of the room to use as a platform to reach the end of the room.

Puzzle Overview

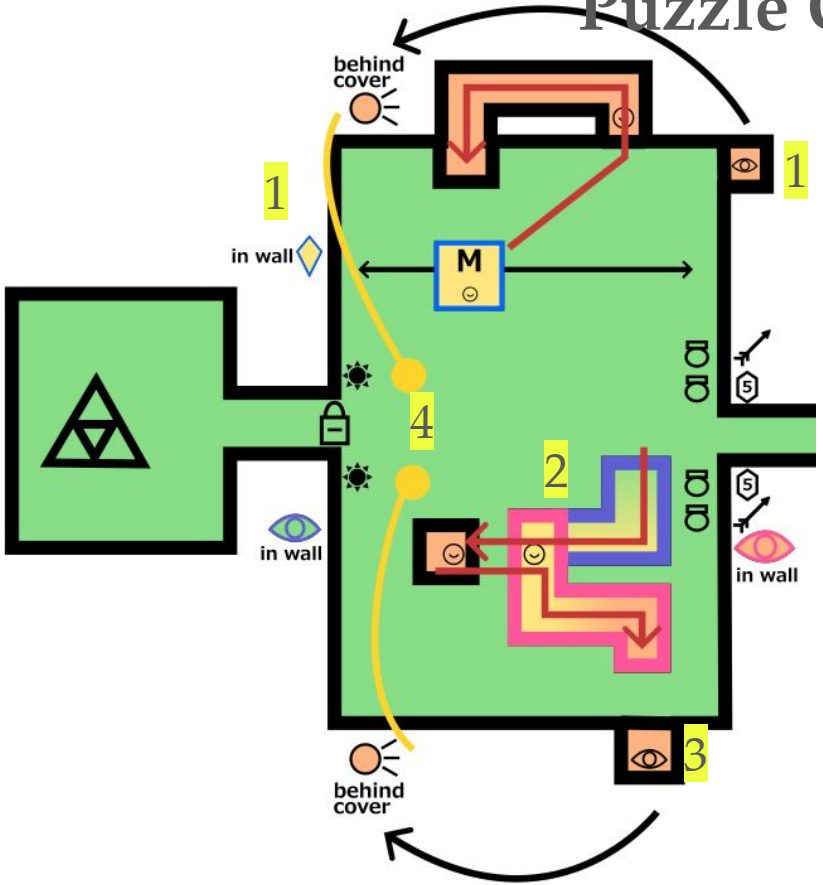

1. Hit the crystals in the wall to stop the moving platforms in front of them.
2. Push the block up to use as cover for the laser. Platform across the room.
3. Use the platforms to go around and push the block onto a lower level. Use the block to platform to the end of the room.

Puzzle Overview

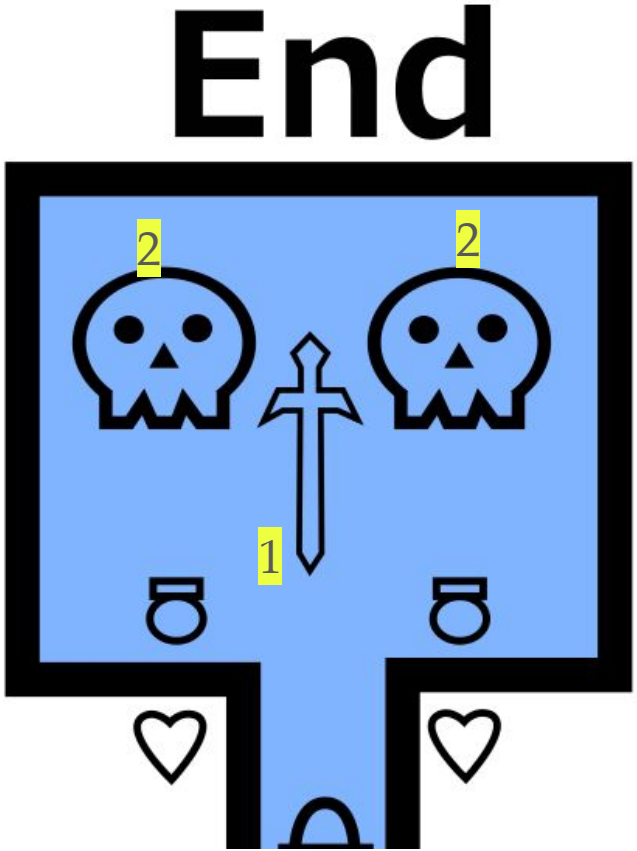

1. Two pillars moving up and down. Hit the pink crystal to stop the left pillar. Hit the purple crystal to stop the right pillar. The purple crystal rest atop the designated pillar.
2. Stop the left pillar to be able to grapple onto it and walk around the upper level.
3. Stop the right pillar in the right spot to allow the light to shine through.
4. Reflect the light onto the sun switch to open the door.

Puzzle Overview

1. Hit the crystal to stop the moving block for a short time. Grapple up and around to hit the eye switch, removing the cover for the first light source.
2. Two platforms embedded in ground. Designated eye switches will raise them above ground for a short time.
3. Raise the purple platform and grapple to the upper platform. Hit the pink eye to raise the pink platform. Use the pink platform to hit the eye switch to remove the cover for the second light source.
4. Reflect each light source onto the nearest sun switch to open the door.

Puzzle Overview

1. Receive the Master Sword enhancement.
2. Two golden guardians will spawn into the room after the Master Sword is enhanced.
